

TYLÖ[®]
for the senses

TYLÖ EVOLVE

Close your eyes and spread your wings

As if by magic, the larva transforms into a chrysalis and then into a fully-formed butterfly. This process happens amazingly fast and the end result is perfection.

Evolve means to develop. We use the word to describe transition from one stage to another. A new form, function or intent. Rebirth, if you like. Transformation takes just four weeks for the monarch butterfly.

Our new sauna is called Evolve for a reason

The name carries a unique meaning and Evolve is therefore no ordinary sauna.

We bring you the best of both worlds for an unequalled sauna experience. The beautiful aspen interior with its genuine, luxurious feel harmonises with large glass panels and an open view of the bathroom.

Run your fingers over the hand-crafted aspen and drift into a relaxing reverie. Feel your inspiration awaken and your thoughts become clear. Close your eyes and spread your wings.

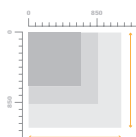

What is an Evolve?

Tylö Evolve gives you almost unlimited versatility in customising your sauna to your own taste.

Evolve is available in three basic versions with varying degrees of glass integration. The Flex system also allows you to extend the size in stages. On top of this you have a range of stylish optional extras and heaters for creating your own Evolve sauna, entirely tailored to your bathroom.

A package solution or Flex?

Are you feeling creative or looking for a turnkey option?

Evolve brings you the best of both worlds - Package or Flex. Make quick and easy decisions or go for a more detailed approach.

What is included in an Evolve?

Evolve Standard is the first step into the world of Evolve saunas with its authentic design and finish. It offers everything you need to experience true sauna pleasure in your own bathroom. Pre-insulated walls/ceiling, floor frame and ventilation with an unrivalled standard of craftsmanship throughout.

If you want a more open feel with larger glass panels, Evolve Plus GF or Evolve Plus GC are the answers.

Your Evolve includes the following:	Standard	Plus GF	Plus GC
Aluminium floor frame	●	●	●
Vent and assembly hardware	●	●	●
Insulated wall and ceiling panels	●	●	●
Additional glass panel	○	–	–
Frameless glass panel	–	●	–
Frameless corner glass panel	–	–	●

● = included

○ = optional

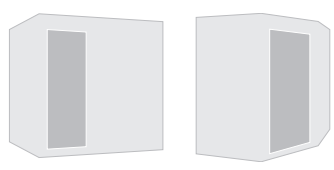

– = not optional

1. DGB is a simple yet robust spruce sauna door. **2.** DGL is a series of more exclusive sauna doors, made from aspen. The glass doors in a sauna package are always clear. Tinted glass is available as an option. **3.** Spruce. **4.** Aspen. **5.** The E28 sauna bench has narrow slats made from solid aspen. **6.** The E68 sauna bench has wide slats made from solid aspen. Both benches are crafted without visible screws. **7.** Sauna LED lighting.

Evolve Standard

Evolve Standard

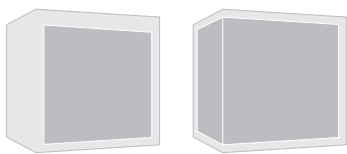

Evolve Standard Corner

The feel of quality and genuine craftsmanship are immediately apparent. First, you choose whether to have spruce or aspen panels, then vertical or horizontal bench slats. The sauna door is included and is available in a variety of designs.

Evolve Plus

Evolve Plus GF

Evolve Plus GC

Larger glass panels increase the sense of openness. **Evolve Plus GF**, which stands for Glass Front, gives the sauna a much greater glazed area. If you like openness and natural light flooding in, then **Evolve Plus GF** will appeal.

Evolve Plus GC stands for Glass Corner and offers you maximum vistas while relaxing in the sauna. The highly exclusive Plus GC sauna promises an exquisite experience with its expansive glazed design. If your bathroom is spacious and beautiful, the dimensions of the Plus GC will really come into their own.

Package solution

Of course you want to spend more time enjoying your sauna. Our complete packages make choosing and owning a sauna a simple experience.

Mini

Midi

Maxi

In just three easy steps, you choose the size, interior, lighting, door and heater to create an Evolve sauna tailored to your needs and taste.

Nothing could be easier and it saves you precious time. Time better spent relaxing in your sauna.

Enhance the experience

The Sense Combi crossover heater adds variation to your pleasure. Enjoy dry, wet and steam saunas with just one heater, which features a standby mode and divided output to maximise energy efficiency.

The elegant h2 control panel is also included in its design.

How
to order
a package

Step 1

Choose a package.
Mini, Midi, Maxi.

Step 2

Choose from
Standard/GF/GC.

Step 3

Choose a
heater.

Flex

Materials, fittings, the door and lights - don't you just love choosing? You are careful in making your choices and see the benefits of customising a solution for your bathroom.

Honeycombs are nature's own Flex system. Bees construct new comb cells at lightning speed. As many as 4000 a day in larger colonies.

Our Flex system guarantees that the Evolve is designed exactly to your wishes and delivers the experience you're seeking.

Choose from a range of fittings, lights, woods and doors with a matching heater to complete the design.

Follow our four steps to create your own, personal Evolve sauna, then enjoy an absolutely unique experience.

reddot design award

Award-winning design

The Expression Combi heater takes everything to a new level. This heater lets you enjoy a dry, wet and steam sauna.

Expression has won the international Red Dot Design award.

How
to order
Evolve Flex.

Step 1

Choose a size.
Width and depth.

Step 2

Choose from
Standard/GF/GC.

Step 3

Choose wood,
interior fittings,
door & lighting.

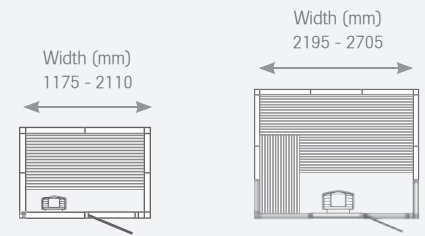

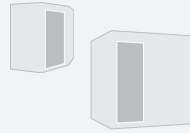

Step 4

Choose a
heater.

Evolve Standard & Evolve Corner

- External height: 2100 mm with high floor frame and 2010 mm with low.
- Can be reversed.
- Choose either aspen or spruce panelling.
- Saunas 2195 to 2705 mm in width are fitted with a third bench.
- Can also be fitted with glass panelling. Contact your dealer for details.

Width		1175	1255	1340	1430	1510	1600	1685	1770	1855	1940	2020	2110	2195	2280	2365	2450	2535	2620	2705

Your freedom of choice is part of our design plans

Here is a layout chart of our complete range of prefabricated sauna rooms. It shows the sizes, correct location of the sauna heater and the layout of the interior fittings. Reverse installation is possible for the Standard and Plus GF saunas. It also indicates which standard walls can be replaced by glass panelling.

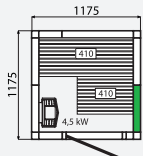

For the sake of clarity, the optimum heater output for each sauna is also specified. All you do now is compare the details and decide which sauna you like most.

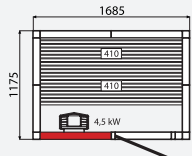

Evolve Standard

All the saunas have an external height of 2100 mm with the high floor frame (standard) and 2010 mm with the low floor frame.

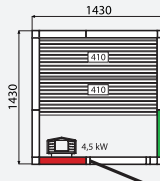

- Glass panelling 9L & Glass panelling 9H
- Glass panelling 9L/V & Glass panelling 9H/V (vent)
- Glass panelling 6L & Glass panelling 6H
- Glass panelling 6L/V & Glass panelling 6H/V (vent)
