

# TYLÖ DESIGN LINE

Design Line is a series of products consisting of four brand new sauna designs. Each one is an absolute concept of style, ready to be used. You can choose a size and freely combine features – or perhaps you like them as they are.

## Simplicity

By combining the best of design and material development, Simplicity challenges the way a sauna can and should look. The unexpected lines greatly enhance the feeling of freshness and exclusiveness.

This stripped-down, cube-like sauna has a high-gloss lacquered exterior with seamlessly integrated lateral windows. The door is made of stylish tiger ash. The beautiful caulked aspen benches create a staircase look inside the sauna and the atmospheric lighting further heightens the feeling of novelty and innovation.
